20 years ago, our Co-Founders took a life-changing trip to Zambia. This trip not only sparked the idea for what would become Spark Ventures, but also inspired the partnership-driven model that continues to guide our work. Over the last 19 years Spark's impact has expanded, partnering with 4 organizations in 4 different countries: Hope Community School in Zambia, Las Tías in Nicaragua, Entreamigos in Mexico and We Grow Chicago in the United States. Through these partnerships, we invest in sustainable, community-led solutions that empower under-resourced communities around the world. By supporting programming in areas of education, nutrition, job creation, businesses development, and environmental stewardship, our partners are building equitable communities where students, women, and families can thrive.
