An international journey **for any travelers** including young adults, families, seniors, individuals or groups

Impact Activities

The Sustainable Agriculture Impact Trip to Nicaragua provides the opportunity to engage in activities and learn about sustainable agriculture on a 170 acre farm investment in the mountains of Matagalpa. You may find yourself planting trees, harvest crops or learning about our organic honey production. In future years, Spark's investment in this farm will generate profits to support the two community centers of our social program partner, Las Tías in Nicaragua.

Registration
